OROLIA Strengthens Customer Connections

Orolia announces alignment of time and frequency channels

SOPHIA-ANTIPOLIS, France — As a part of its global strategy to expand the Group's presence and commitment to exceptional customer support, Orolia (NYSE Euronext Paris - FR0010501015 - ALORO), announced today plans to align its time and frequency companies Spectracom and Pendulum with a shared sales and service infrastructure. This partnership between the two companies will provide customers with a focused, regional sales and service organization.

"We believe the alignment of these industry leading companies under one sales and service organization will enhance our relationships with customers by providing local resources for product selection and technical support." said Jean-Yves Courtois, Orolia CEO and Chairman. "In addition to efficiencies of a shared, regional sales and support structure, customers will benefit from having an integrated portfolio of industry leading time and frequency products and solutions."

The company expects to deploy the new structure in North America in the second quarter with roll outs in global markets in the second half of the year. In conjunction with the creation of the sales and support organization, each business unit will continue to invest in core technology that differentiates them in the market. Lisa Withers, Spectracom President and CEO said "We believe Pendulum's line of test and measurement equipment will enhance our position in North America and help us both accelerate growth in global sales." Harald Kruger, Pendulum CEO said "This partnership will enable us to build on our strong presence in Asia and present our customers with complementary timing and synchronization products and quick turn-around for service and technical support."

About Pendulum Instruments

Pendulum Instruments is the world's expert in time and frequency, calibration, measurement and analysis, with over 50 years of experience in test and measurement instrumentation. An industry leader serving the electronics, communications, metrology and military markets with a product portfolio of frequency counters, frequency standards and distribution systems, synchronization products, and wireless test equipment. A global company headquartered in Stockholm, Sweden with offices and subsidiaries in China, Russia, USA, and Poland. Pendulum Instruments serves customers in over 100 countries. iPrecision Systems for Critical Operations

About Spectracom Corporation

Spectracom Corporation, a company of the Orolia Group, designs, develops, and manufactures Legally Traceable Time® and frequency products that are used for Synchronizing Critical Operations® in a wide variety of communications, broadcast and IP networks in Public Safety, Aerospace and Defense, Financial Services, Healthcare and Broadcast markets. Founded in 1972, Spectracom's worldwide headquarters is located in Rochester, New York. Spectracom is an ISO 9001:2000 registered company. For more information, visit www.spectracomcorp.com.

About Orolia

Orolia is a high-technology group specialized in precise timing, positioning and synchronization. Orolia provides high-precision electronics equipments that help determine the 'where and when' of people, objects or events in large and growing markets such as Defense & Security, Space & Navigation and Telecom & Broadcasting. High-precision timing, positioning and synchronization solutions are vital for satellites navigation systems, space exploration and military operations. They are also required for day life applications in public safety with synchronizing call taking, dispatching and operations between police, fire, and Emergency Medical Services, or in telecommunications for wireless telecom networks or Digital Terrestrial Broadcasting or mobile TV. In addition, the measurement and analysis of time and frequency signals is critical to organizations as diverse as telecom operators, metrology, laboratories, R&D centers, or armies all around the world. The Orolia group deploys its systems worldwide through four companies: Pendulum Instruments, Spectracom, SpectraTime and T4Science. The group has committed to an organic growth strategy boosted by acquisitions. Orolia's headquarters are located in Les Ulis, (France). The company also has main offices in Neuchâtel (Switzerland), Stockholm (Sweden), and Rochester (New York).
