

SPECTRACOM PRODUCT DISCONTINUANCE NOTICE

Product: Epsilon Clock, Model EC22S

Effectivity Date: December 12, 2017

Replacement Product: EC20S – SAS-E Solution

The EPSILON CLOCK EC22S Dual-GPS clock module, which was first introduced in 2002, is now End Of Life and no longer available, effective immediately. EC22S closest replacement is a combination of 2xEC20S + 1xSAS-17E (or 1xSAS 36E), which offers modularity and performance with many improved features and functionality, especially as network time server and GNSS multi-constellation capabilities. (see synoptic below).

Standard support for the Epsilon Clock 22S is expected to be available up to 2022.
