

SPECTRACOM PRODUCT DISCONTINUANCE NOTICE

Product: Rapco 1804 and 2804 Master Clocks and 2816 Tracking Oscillator

Effectivity Date: April 24, 2013

Final Order Date: June 30, 2013

Replacement Product: SecureSync

Rapco family of GPS masterclocks, including models 1804 and 2804 and tracking oscillator model 2816, is nearing end-of-life. It has been replaced by SecureSync model, which offers unsurpassed modularity and performance, as well as many improved features and functionality. Still, last-time buy orders for the models 1804, 2804 and 2816 will be accepted by June 30, 2013, for delivery on or before December 30, 2013.

Standard support for the 1804, 2804 and 2816 models via hardware repairs is expected to be available up to 2018. Limited software support will be provided up to 2015. For support beyond these dates, specific support contracts can be setup upon request.
