

## **Orolia to Showcase GPS Anti-Jamming/Spoofing Solutions at DSEI**

*Feature Presentation & Special Industry Announcement from Orolia CEO*

**London, UK - 5 September 2019** – Orolia, the world leader in Resilient Positioning, Navigation and Timing (PNT) solutions, announced today that it will present a comprehensive suite of GPS jamming and spoofing protection technology and countermeasures as part of its Resilient PNT military exhibit at DSEI. Orolia CEO Jean-Yves Courtois will deliver a feature presentation during the event agenda, including a special industry announcement on 10 September 2019.

Key exhibits include demonstrations of Orolia's navigation warfare (NAVWAR) solutions; advanced military GNSS testing and simulation technology; and Resilient PNT products such as SecureSync®, the only defense network Time and Synchronization Device approved by the US Defense Information Systems Agency (DISA) for government use.

Orolia will also present a variety of mobile tactical and Combat Search and Rescue (CSAR) beacons, such as the renowned SARBE Evo line and SecureFind to support complex military missions and locate warfighters who are isolated, missing, detained or captured.

Global military operations rely on continuous, accurate GNSS signals and PNT information. Orolia's comprehensive solutions deliver precise, secure battlespace communications, situational awareness and decision support for a wide range of mission-critical applications.

**What:** Orolia Resilient PNT Exhibit  
**When:** September 10-13, 2019  
**Where:** DSEI  
**Orolia Booth #N2-225**  
ExCeL
